

## Criteria for Erosion/Sediment Control Plan Review/Inspection Fee

Type of Project			
	Type 1	Type 2	Type 3
Fee	\$2,500* + \$75 Record Retention Fee	\$850* + \$25 Record Retention Fee	\$375*** + \$11 Record Retention Fee
Criteria	<p>1) Hillside project (<math>\geq 5\%</math> slope across project site) and Project proposes the movement of <math>\geq 1,000</math> CY of dirt</p> <p>or</p> <p>2) Project site is adjacent to a watercourse (creek, river, channel) and Project proposes the movement of <math>\geq 1,000</math> CY of dirt</p>	<p>1)** Hillside project (<math>\geq 5\%</math> slope across project site) and Project proposes the movement of <math>&lt; 1,000</math> CY of dirt</p> <p>or</p> <p>2)** Project site is adjacent to a watercourse (creek, river, channel) and Project proposes the movement of <math>&lt; 1,000</math> CY of dirt</p> <p>or</p> <p>3) Project site is flat (<math>&lt; 5\%</math> slope across the project site) and Area Disturbed <math>\geq 1</math> acre</p>	<p>1) Project site is flat (<math>&lt; 5\%</math> slope across the project site) and Area Disturbed <math>&lt; 1</math> acre</p>
Erosion Control Plans	Type 1 and 2 Sites require an Erosion/Sediment Control Plan be submitted to the City for review and approval		No Erosion Control Plan required
Meetings /Trainings	Type 1 Sites require a meeting with the Developer, Civil Engineer, erosion specialist (if any), contractors (general/grading), City PW PE, and City PW Inspector prior to the Wet season	Type 2 Sites require that the Developer, Civil Engineer, contractors (general/grading) attend a City sponsored Erosion/Sediment Control Training prior to the Wet Season	No meeting or training

\* = Fee is for Plan Review and Inspection

\*\* = This Type 2 project may require a meeting with the developer (PE's discretion) although the fee will remain \$850

\*\*\* = Fee is for Inspection only
